Masters in International Business (Distinction)
BSc Computer Science (Software Dev.)

PROFILE

A recent graduate with a Bachelor of Computer Science and Masters in International Business from the University of Wollongong, with a focus on software development.

Key achievements include:

- As a software development intern, developed an iOS mobile application called "UpperCase" which met the project requirements and was accepted by the client.
- Built a website application themed "Plan Your Own Funeral" as a final year project in software development. The resulting application delighted our client, ExSitu, an online platform providing tools for people to define and document for family and health care providers their wishes regarding how they want to live their life as they grow older.
- Achieved an average grade of "Distinction" for the required coursework for a Masters in International Business whilst studying, working part-time, and being actively involved as the Vice President for the Malaysian Association for Students.

KEY SKILLS

- Problem solving and logical thinking
- Proficiency in programming languages – 'MERN' stack, C++, Python
- Accuracy and attention to detail
- Organisational and time management skills
