Business Development Specialist | Software Eng.
Masters in International Business (Distinction)
BSc Computer Science (Software Dev.)

PROFILE

A business development specialist with previous experience as a software developer and graduate with a Bachelor of Computer Science and Masters in International Business from the University of Wollongong, Australia.

Key achievements include:

- Assisted HuaChen in preparation for their exhibition in Russia which attracted international clients from China, Russia, Croatia, UAE, to generate over HKD$2.2 Million in sales of their Christmas range products.
- Improved Truescope's client and internal web applications through bug-fixing, implementing unit tests with Jest, making web applications more mobile friendly, improving display of login interface, and worked with the client success team to troubleshoot issues faced by clients.
- Built the frontend of a web application called "Plan Your Own Funeral" as a final year project in software development utilising tools such as Vanilla JS, SCSS, and HTML. The application assists users to document and define particulars to be shown during their funeral
